

SMARTER PRINTING FOR LOGISTICS & MANUFACTURING

- Secure Print Release
- Find Me Printing
- Cross Platform
- Mobility Print
- Site Servers
- Reporting
- Scan To Cloud
- Print Deploy

PaperCut MF makes print management as easy and pain free as possible. From simple tracking and monitoring of print, copy, scan and fax jobs, to integrating BYOD printing or advanced custom job management. PaperCut MF has helped over 75,000 organizations worldwide control their printing and copying costs while also reducing their environmental impact.

PaperCut MF print management software tracks and reports on who, what, when, where, why and how people are using the printer/MFP resources in your business. It's a low-cost, feature-rich solution that is always evolving to meet the needs of your dynamic environment.

PaperCut MF makes it easier for staff to print documents when and where they need them, even from your mobile devices, reducing waste and saving money for manufacturing and logistics companies of all sizes. With its powerful reporting tools, PaperCut MF gives you access to the most important data in real-time – straight from your web browser, from anywhere on your network, regardless of platform. With Site Servers, assure continuous availability of printing resources during unplanned network disruptions, perfect for companies with multiple locations.

LOGISTICS & MANUFACTURING

FEATURE	FUNCTION	CUSTOMER BENEFIT
Secure Print Release	Keep sensitive documents safe with secure release	Improve security with no unattended documents
Find-Me Printing	Print once and retrieve from any device in any location	More flexibility between locations and less waste from uncollected documents
Cross Platform	Manage printing across all operating systems, including mainframe and legacy infrastructure	Seamless usage in a mixed OS or mixed fleet environment
Mobility Print	Print from smartphones, tablets, laptops and Chromebooks from anywhere via the Cloud	Track and enable usage from all desktop, laptop and mobile devices
Site Servers	Ensure high-availability of print resources across multiple locations/domains during unplanned network disruptions	Ensure consistent uptime for all locations and offices
Reporting	Report on all printer and copier activity by employee, function and location	Make smarter equipment and consumables purchases
Scan to Cloud	Send scanned documents to cloud storage providers	Spend less money and time storing paper documents
Print Deploy	Push the right queues and drivers to roaming users	Spend less time managing the fleet and helping users configure printing

TOSHIBA'S SOLUTION ALIGNMENT

TOSHIBA'S ADVANCED LINE OF MULTIFUNCTION PRINTERS (MFPs)

Key Benefits

- Broad media range support
- Workflow process on-ramp
- Exceptional image quality & reliability

TOSHIBA'S BARCODE & THERMAL PRINTERS

Key Benefits

- Rugged industrial design with high performance for warehouse/distribution center environments
- Low total cost of operation - 3X print head warranty, ribbon save and large capacity consumables
